OUR STORY

BUILDING BRIDGES BETWEEN VIETNAMESE CRAFTSMANSHIP AND GLOBAL BUYERS

Mary Pham Sourcing Vietnam Co., Ltd. is a Ho Chi Minh City-based supply chain management and sourcing company connecting US builders, contractors and trade partners with reliable manufacturers in Vietnam — from kitchen cabinets and furniture to doors, flooring, building materials and interior finishing products.

With a reliable manufacturing network and practical experience in the Vietnamese market, we support clients through the entire process — supplier selection, quality control, international shipping and delivery coordination — with consistent quality, competitive pricing and on-time delivery.

OUR VALUES

Integrity

Transparent communication and ethical business practices.

Quality

Verified manufacturers and rigorous quality control.

Reliability

Consistent delivery and dependable project support.

Partnership

Long-term relationships built on trust and collaboration.

Efficiency

Streamlined sourcing, logistics and supply chain management.

Commitment

Helping builders source smarter and grow with confidence.

ONE TEAM. TWO COUNTRIES. ONE RELIABLE SUPPLY CHAIN.

Sourcing and supply chain operations in Vietnam, combined with project management, design, construction and installation expertise in Texas through our US partner, Contractor Sourcing LLC — from concept and procurement to manufacturing, logistics and on-site installation.

CERTIFIED & AUDIT-READY

Products supplied through our network can be accompanied by full compliance documentation for US and international import.

SECTION 01 • INTERIOR DOORS

01 MODERN SHAKER MDF INTERIOR DOORS

Reliable interior door solutions for U.S. residential construction.

Designed for the U.S. residential construction market, our Modern Shaker MDF Interior Door collection offers a practical combination of clean architectural styling, consistent production quality and sourcing flexibility for builders, contractors, developers, wholesalers and home brands.

Available in 1-panel, 2-panel, 3-panel and 5-panel Shaker designs, the collection covers standardized residential projects — from production homes and multifamily developments to renovations and custom-built homes.

The clean Shaker profile works naturally across modern, transitional, farmhouse and contemporary interiors, delivering a consistent look throughout the home.

DESIGN OPTIONS

THE SHAKER COLLECTION

Five panel layouts, one consistent Shaker profile — choose the design that fits your project.

1-PANEL

Clean flat panel for modern and transitional interiors.

2-PANEL

Balanced split panel for bedrooms, baths and utility rooms.

3-PANEL

Evenly stacked panels — a versatile farmhouse favorite.

5-PANEL

Horizontal panels for craftsman and mid-century builds.

STANDARD SIZES

W × 80" H × 1-3/8" thick

24"

28"

30"

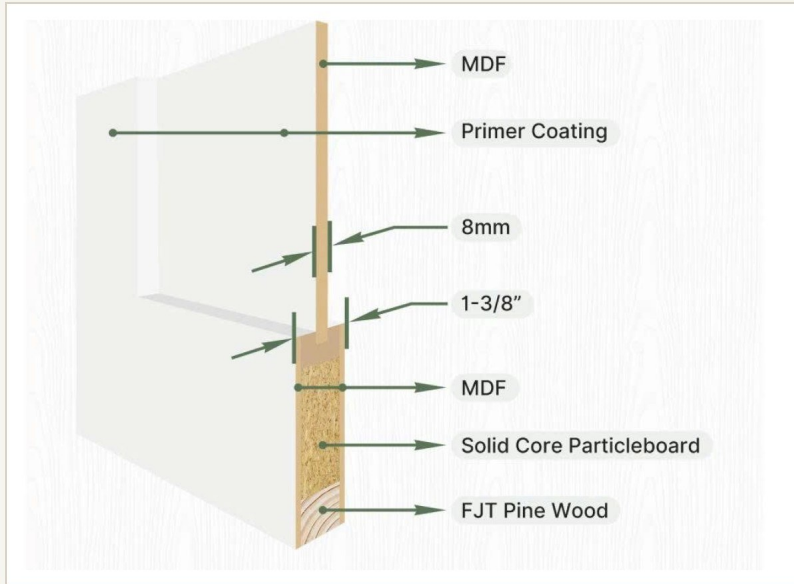

32"

36"

Custom sizes and 96" heights available on request.

BUILT TO PERFORM

DOOR CONSTRUCTION

8mm MDF panel

Smooth, stable face with crisp Shaker profiles.

Primer coating

Factory white primed — ready for paint. Painted or veneered surfaces available.

1-3/8" door thickness

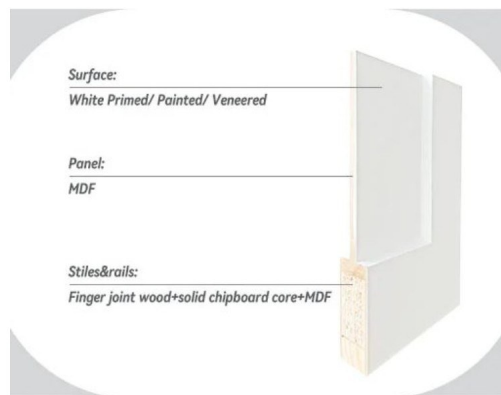

Standard US interior thickness.

Solid core particleboard

Dense chipboard core for a solid feel and better sound control.

FJT pine stiles & rails

Eco-friendly finger-joint pine with MDF edge.

Door Slab Structure

Surface: white primed, painted or veneered • Panel: MDF •
Stiles & rails: finger-joint wood + solid chipboard core +
MDF.

Door Jamb Structure

White primed finger-joint pine frame — matches the slab
for a unified look at a very competitive price.

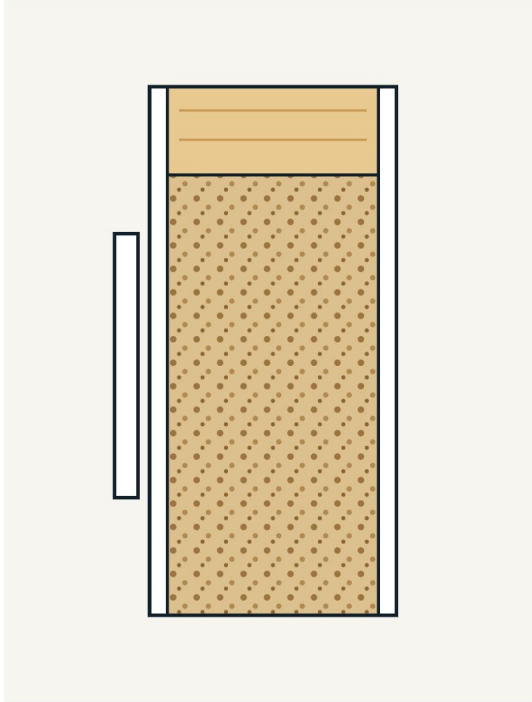

OUR MOST POPULAR BUILD

SHAKER SOLID CORE

Moulded Shaker-style doors built on a solid chipboard core and solid pine skeleton.

SPACE-SAVING & GLASS

SLIDING & FRENCH DOORS

Any Shaker or flush slab in this catalog can be supplied for pocket, barn or bypass installation.

C POCKET & SLIDING DOORS

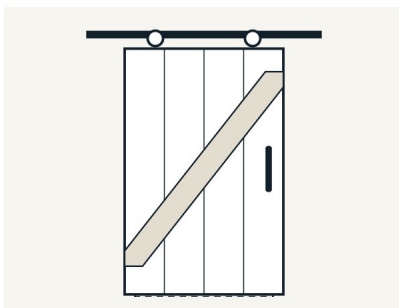

Slab + track or frame kit

POCKET DOOR

Slides into a steel-reinforced pocket frame inside the wall — saves the swing space of a hinged door.

Slab: 24"–36" × 80" • **Wall:** 2×4 or 2×6 frame kits

BARN DOOR

Surface-mounted on an exposed track. Slab is sized wider than the opening to cover it fully.

Common: 36" and 42" × 84" • slab 2"–4" wider than opening

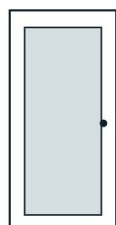

BYPASS CLOSET

Two or more slabs glide past each other on an overhead track — ideal for wide closets.

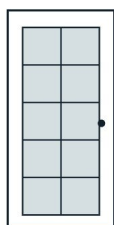

Openings: 48", 60" and 72" W × 80"

D FRENCH DOORS

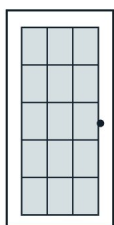

Interior glass doors

1-Lite

10-Lite

15-Lite

Glass

Tempered safety glass (required for doors by U.S. code) — clear, frosted or obscure

Singles

24"–36" W × 80" H

Pairs

48", 60", 72" W × 80" H • astragal and flush bolts on inactive leaf

Uses

Home offices, dens, dining rooms and pantries

SECTION 02 • EXTERIOR DOORS

02 EXTERIOR WOOD DOORS

Elevate your projects with premium exterior wood doors sourced from trusted manufacturers in Vietnam.

Designed for contractors, builders, distributors and private-label brands, our wood doors combine timeless craftsmanship with reliable performance. Each door is manufactured using carefully selected materials, precision construction and high-quality finishing for exceptional durability, beauty and long-lasting value.

Available in a wide range of styles, wood species, panel configurations and custom sizes, our exterior wood doors can be tailored to residential and commercial requirements. From luxury homes and custom residences to large-scale developments, we provide dependable manufacturing, competitive pricing and consistent export quality.

SOLID WOOD ENTRY DOORS

CRAFTSMAN COLLECTION

Knotty alder • Stained finishes

MODEL KA-554

FULL-LITE DOUBLE

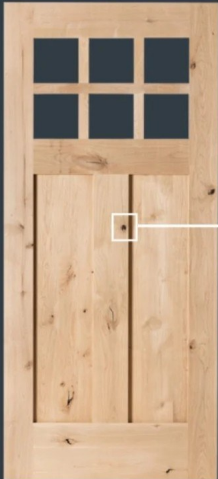

KA-400

Floor-to-rail clear glass in knotty alder for sunrooms, verandas and patios.

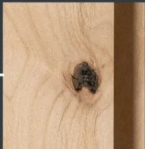

KNOT EVERY DOOR IS THE SAME

KNOTTY ALDER & STAINS

KNOTTY ALDER WOOD DOORS

Knotty alder wood showcases dark textured knotting that adds a touch of unique charm and personality to your home.

Our wood knots are filled in with a black epoxy resin to accentuate the knot's appearance and to provide enhanced durability and protection.

Knotty Alder

'Knot' every door is the same!

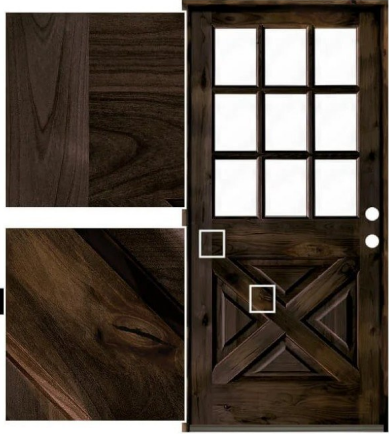

This door displays dark and visible wood knots to provide a charming and unique piece for your home.

Door Stains

Stain options that fit your style

Our rich stain options offer protection for your door while allowing the individual character of the natural wood grain to shine through. Knots and wood grain direction can affect the appearance and opacity of the stain.

KNOTTY ALDER

Dark, textured knotting adds unique charm and personality — no two doors are alike. Knots are filled with black epoxy resin to accentuate their appearance and provide enhanced durability and protection.

DOOR STAINS

Rich stain options protect the door while letting the natural grain shine through. Knots and grain direction can affect the appearance and opacity of the stain.

PROTECT YOUR WOOD DOOR

OVERHANG REQUIRED

OVERHANG REQUIRED!!

A proper overhang is essential to prevent door damage from rain, snow, and sunlight. Direct exposure reduces lifespan, may require repairs, and voids the warranty.

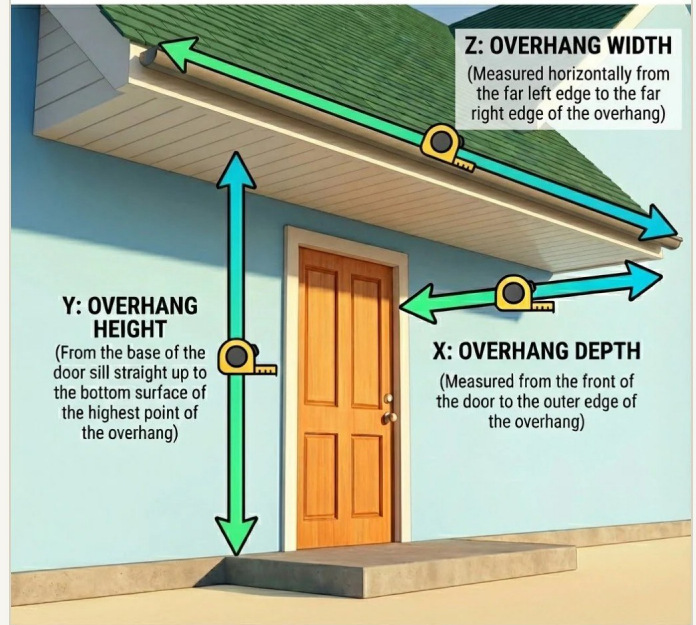

Ensure your door has a proper overhang for longevity. Overhang width (W) should equal overhang height (H), and overhang depth (D) should be at least half of the height (H).

Overhang formula:
 $W = H$ and $D \geq \frac{1}{2}H$

SIMPLE GUIDE: MEASURING FOR A DOOR OVERHANG

$$W = H$$

$$D \geq \frac{1}{2}H$$

A proper overhang is essential to prevent door damage from rain, snow and sunlight. Direct exposure reduces lifespan, may require repairs and voids the warranty.

D **Overhang depth**
From the front of the door to the outer edge of the overhang.

H **Overhang height**
From the door sill straight up to the underside of the overhang.

W **Overhang width**
Horizontally from the far left to the far right edge.

OUR ADVANTAGE

WHY CHOOSE OUR DOORS

QUALITY & VALUE

- Premium materials sourced from trusted suppliers
- Precision machining for consistent dimensions
- Smooth factory-ready finishing options
- Multiple core constructions available
- Wide selection of sizes, panel configurations and styles
- CARB P2 and export-compliant materials available
- OEM & private label manufacturing
- Competitive factory-direct pricing
- Reliable production scheduling and global export support

MANUFACTURING CAPABILITIES

We support customers throughout the entire sourcing process:
